Space & Naval Warfare Systems Command Awards Contract

SAN DIEGO — Ultra Electronics, Sonar and Communication Division, Greenford, Middlesex, United Kingdom, is being awarded a \$2,414,550 indefinite delivery indefinite quantity contract to acquire research and production of a KG-40AR cryptographic device and ancillary equipment necessary for sustaining the link-11 capability. This effort will be a Cost-Plus-Incentive Fee type contract for the Research Development Test & Evaluation (RDT&E) phase with Firm Fixed Price CLINS for the production phase. This requirement will cover a five-year period of performance, a two-year RDT&E phase and three option years for production, which if exercised, would bring the cumulative value of this contract to \$22,860,959. This contract combines purchases for the U.S. Navy (30%), U. S. Army (11%), U.S. Marine Corps (4%), and U.S. Coast Guard (5%). The remaining 50% will be available to support allied and coalition interoperability. Work will be performed in Middlesex, England, and is expected to be completed by April 2009. Contract funds will not expire at the end of the current fiscal year. This contract was competitively procured and two offers were received via the SPAWAR E-commerce web site. The Space and Naval Warfare Systems Command, San Diego, Calif., is the contracting activity for (N00039-04-D-2013).
